

Photos by Elizabeth

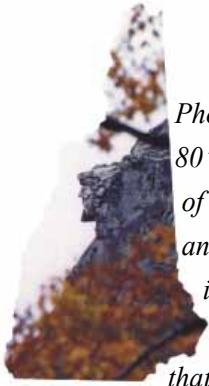

*A collection of fine
New England photography
capturing the rich beauty and wildlife
of this land we love.*

Photos by Elizabeth

All the photos in this collection are available in color, B/W or with a sepia tone, and with a mat and a fine quality wood frame.

Photos by Elizabeth started in the 80's with a desire to share the beauty of New England's natural beauty and wildlife. This has developed into an ever expanding and delightful selection of photos that can be seen in galleries, homes, businesses and gift shops across the state of New Hampshire, and beyond. Elizabeth's dedication to this work includes the careful selection of mats and crafted frames that enhance the beauty of each individual photo.

Elizabeth was born in Mississippi, and enjoyed living and traveling in the south with her family and friends. These early impressionable years gave her a deep appreciation of the wonder of nature. This appreciation of the outdoors continues to expand with her "Look at New England". She now lives in central New Hampshire with her husband, three daughters and seven grandchildren.

Her fondness for New England is reflected in this unique collection of New England photos that brings to life the beauty that surrounds us all.

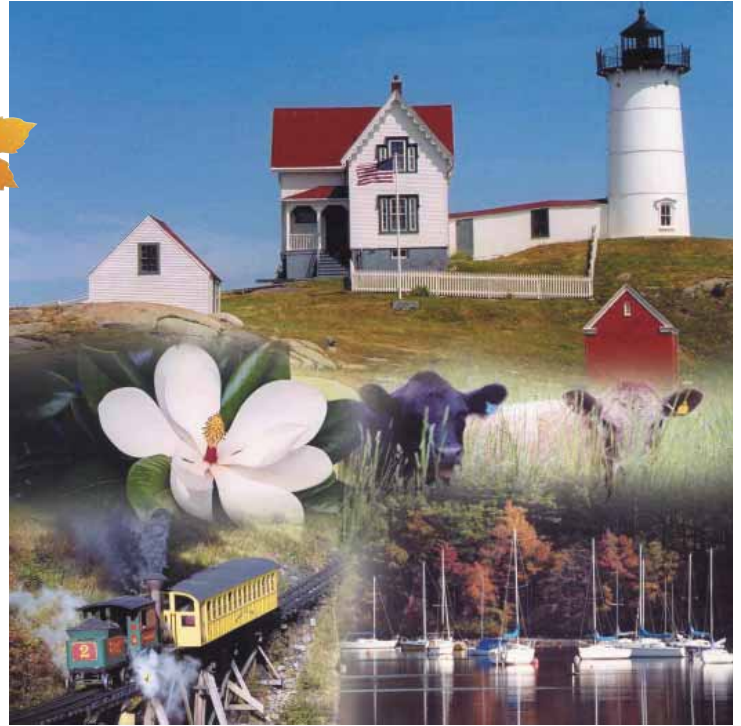

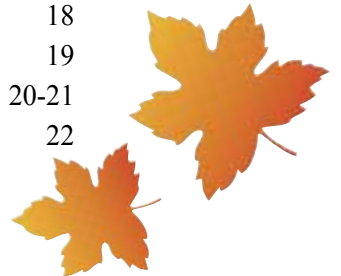

Table of Contents
